

CLARIFICATION 001

The following clarification were sought by a bidder for **RFx 1000001108: TENDER FOR SUPPLY, INSTALLATION AND MAINTENANCE OF CCTV CAMERAS AT REREC KAWI HOUSE-RETENDER** and clarified as follows;

No.	Questions /Queries	Response
1	Confirm the number of Network switches & SFP to be used. - On the Tender document, it reads differently.	It should be Switches 10 sfp 20
2	Clarification on item no.7 on the schedule of requirements-streaming server (give specifications)	A video decoder specifications has been provided not a streaming server

No.	Questions /Queries	Response
3	Clarification of the Patch panels – panduits/ Giganet patch panels- if Giganet can be used instead of Panduit patch panels.	Specs have been given for the patch panel.
4	Clarification on Storage server & streaming server – what is the function of each of the servers, if they serve the same purpose or different purposes?	Storage specifications have already been provided for storing footage(SAN), no streaming server instead its video decoder and specifications have been given.
5	Clarification on drawings - I would like to know if the drawings are required during the tendering period or after the CCTV installation and the project's commissioning to show the exact position of the cameras and layout.	No drawing during the tendering period. Drawing will be submitted by the tenderer during handing over
6	On the issue of SAP – the Tender has not yet been uploaded on the SAP portal – Tender RFX No.1000001108.	Tender already uploaded.
